

# Legends Demo 2026

## Regulations

### Technical inspection and drivers' briefing

Every racing motorcycle and road motorcycle must be presented for technical inspection. The technical regulations for historic racing motorcycles must be observed. Helmets must also be presented at the technical inspection. Only helmets tested in accordance with ECE 06 are permitted.

The drivers' briefing is mandatory; without attending the drivers' briefing, you will not be allowed onto the race track!

### Marking with start number

All motorcycles must be marked with a start number at the front.

Please ask for your start number; if possible, any number already on the motorcycle will be taken into account. The start numbers must be 140–160 mm high.

### Road motorcycles Demo rides

To participate in demo rides/parades, mirrors and number plates must be removed, lighting equipment (headlights, rear lights, indicators) must be covered with tape, and stands must be fixed in place. Coolants may only contain water, no additives such as antifreeze, etc.

### Licences

At least one race card (licence for a single event) is required for the Legends Demo. The race card can only be purchased in advance at [www.dmsb.de](http://www.dmsb.de). This also applies to participants from abroad. Licences cannot be purchased on site.

### Helmets and clothing

Helmets must be presented for inspection during the technical inspection of the motorcycle. Helmets must comply with the ECE-06 standard. Rider clothing must be made of leather. Two-piece suits are permitted if they are firmly connected to each other. Boots must cover the ankles. Gloves must be worn. The use of a back protector is recommended.

### Oil safety

On racing motorcycles, all oil-carrying screw connections (oil drain plug, oil filler plug, oil filter, etc.) must be tight and securely fastened. Engine ventilation hoses must terminate in a container with a minimum volume of 0.5 litres. Coolant must be free of antifreeze.

### Phon limit

During the event, motorcycles must not exceed the noise limit specified by the race track operator. Random checks will be carried out during technical inspection.

### Schedule

You will receive a detailed schedule with your entry confirmation.
